New Hampshire DOT
Department of Transportation

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

CHRISTOPHER D. CLEMENT, SR.
COMMISSIONER

JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER

Bureau of Construction
September 26, 2012

His Excellency, Governor John H. Lynch
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Brox Industries, Inc. (Vendor 177569) of Dracut, MA on the basis of a low bid of $2,345,972.50 for resurfacing of 4.7 miles of NH 101A in Milford from just west of the intersection with NH 101 to the Nashua city line, from the date of Governor and Council approval through July 19, 2013 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows:	FY 2013
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	$2,345,972.50

2. Further authorize that a contingency in the amount of $117,298.63 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	FY 2013
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	$117,298.63

EXPLANATION

This project is part of the annual Federal Resurfacing Program. The project involves an ultra-thin overlay (5/8-3/4') along with spot inlays and other minor drainage and curbing work. This project area was last resurfaced under this same program in 2002 with a deep inlay and overlay. Performing the chosen ultra-thin overlay with spot inlays at this time will seal the pavement, extend the life of the pavement and prevent a more costly complete inlay and thicker overlay in the near future.

JOHN O. MORTON BUILDING • 7 HAZEN DRIVE • P.O. BOX 483 • CONCORD, NEW HAMPSHIRE 03302-0483
TELEPHONE: 603-271-3733 • FAX: 603-271-1558 • TDD: RELAY NH 1-800-735-2964 • INTERNET: WWW.NHDOT.COM

The contingency amount is proposed to be 5% of the contract amount. This is a full season bid with the next spring/summer construction, with fixed limits, being constructed during a time of unstable fuel prices. Adjusting limits to offset quantity overruns is not practical and potential fuel and asphalt adjustments need to be considered.

Although the bid costs exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved. The difference in cost is associated with night paving items. Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.
Commissioner

CDC/md

Department Estimate:	$2,263,482.00
Contract Amount:	$2,345,972.50
Over Estimate:	$ 82,490.50

Attachments

PROJECT: Milford - Merrimack

FEDERAL NUMBER: X-A002(367)

STATE NO: 22633

July 13, 2012

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: Resurfacing of NH 101A beginning in Milford at a pavement joint 700 ft west of the intersection with NH 101 (MM 4.5, urban compact) and proceeding east 4.7 miles to the Nashua city line (MM 9.2, urban compact).
The project will crackseal failed previously sealed cracks and new cracking, overlay an ultra-thin (5/8-3/4") surface, perform spot inlays, reset some existing curbing and replace some failed drainage.

FEDERAL FUNDING: The Construction funding is from the Federal Resurfacing Program (PRRCS *452), with 80% federal funding anticipated utilizing Turnpike Toll credits as the State's 20% match.

CONTINGENCY: The Contingency amount is proposed to be 5% of the contract amount. This is a fall season bid with the next spring/summer construction, with fixed limits, being constructed during a time of unstable fuel prices. Adjusting limits to offset quantity overruns is not practical and potential fuel and asphalt adjustments need to be considered.

PROJECT INITIATED: State's 10-Year Transportation Improvement Program

PROJECT EXPLANATION: This project is part of the annual Federal Resurfacing Program. This project area was last resurfaced under this same program in 2002 with a deep inlay and overlay. Performing the chosen ultra-thin overlay with spot inlays at this time should prevent a more costly complete inlay and thicker overlay in the near future.

TRAFFIC IMPLICATIONS: Four lanes of traffic, (two lanes westbound and two lanes eastbound) shall be maintained between the hours of 6:00 a.m. and 8:00 p.m. At all other times, a minimum of two lanes of traffic (one lane westbound and one lane eastbound) will be maintained.
No paving or cold planing operations will be allowed between the hours of 6:00 a.m. to 8:00 p.m.
