~ 10:00am ~

Wentworth Ballroom
Keynote Speaker Robert W. Varney

Over the past 25 years, recycling in New England has expanded from the once ad hoc programs seen in only a few municipalities to the wide range of state-of-the-art programs that exist in municipalities and businesses today. Please join Robert W. Varney as he highlights some of the critical recycling developments that have occurred since the Co-op's first Conference in 1981 and explores the gamut of possibilities that may await us in the next 25 years.

Robert W. Varney was appointed Regional Administrator for the Environmental Protection Agency's New England Office by President George W. Bush in August, 2001. During his tenure as Regional Administrator, Mr. Varney has made energy efficiency, brownfields redevelopment, environmental justice, clean boating, urban issues, enforcement and strong partnerships with state and municipal governments among his top priorities. Another hallmark of his tenure at EPA New England has been his establishment of a Green Team and an Energy Team in the region. Prior to joining EPA, Mr. Varney, appointed by three New Hampshire governors, was one of the nation's longest serving state environmental commissioners.

Financially Inspired Recycling - Rewarding Resident Recyclers

Jan Canterbury, U.S. EPA, Arlington, VA
Second Speaker - RecycleBank Representative

One of the best ways to convince residents to recycle is to offer them a financial reward! Pay-As-You-Throw programs enable residents to control and, consequently, reduce their waste disposal costs. RecycleBank offers incentives such as coupons or gift cards for active recyclers. Find out how you can reward your residents.

Balsam

Do We Really Know Recycling?

Ted Siegler, DSM Environmental Services, Ascutney, VT
Natalie Starr, DSM Environmental Services, Ascutney, VT

Recycling rates continue to be the primary tool to measure the success of recycling, but statistics often focus solely on residential recycling. A recently conducted, in-depth analysis of recycling compares residential and commercial waste to help communities better understand true rates.

Northwood Is Self-Hauling Your Missed Opportunity?

Ed Thayer, Public Works Supervisor, Town of Washington, NH
Earl Weir, BCEP Solid Waste District, Pittsfield, NH

Several municipalities have recently discovered the benefits of hauling their own trash and/or recyclable materials. In as little as two years, these towns have been able to pay off the purchase of their tractor trailers and substantially reduce their waste management costs. Could your community benefit from this approach?

Hollis

Commercial Composting - A Public - Private Partnership Model

Julia Wolfe, MA Dept. of Environmental Protection, Boston, MA
Brian Houghton, Massachusetts Food Association, Boston, MA

Between 65-85% of a supermarket's waste stream is compostable material and it costs a great deal for disposal. To address this issue, the MassDEP has developed an innovative and exciting public-private partnership to divert organics from supermarkets.

Amherst Managing Medical and Pharmaceutical Waste

Jan Ameen,
Franklin County Solid Waste Management District, Greenfield, MA
Athena Lee Bradley,
Franklin County Solid Waste Management District, Greenfield, MA

Though medical waste makes up a very small portion of the waste stream, it poses a potential hazard to human health and the environment. Learn how one county in Massachusetts safely collects and disposes of residential sharps and unused medications.
