STATE OF NEW HAMPSHIRE

Honorarium or Expense Reimbursement Report (RSA 15-B)

Type or Print all Information Clearly:

Name: Suzanne Harvey Work Phone No. home 603-598-0582

Work Address: 8 Crawford Ln Nashua, NH 03063

Office/Appointment/Employment held: STATE REP

List the full name, post office address, occupation, and principal place of business, if any, of the source of any reportable honorarium or expense reimbursement. When the source is a corporation or other entity, the name and work address of the person representing the corporation or entity in making the honorarium or expense reimbursement must be provided in addition to the name of the corporation or entity.

Source of Honorarium or Expense Reimbursement:

RECEIVED

Name of source: _____

Post Office Address: _____

Occupation: _____

Principal Place of Business: _____

NEW HAMPSHIRE SECRETARY OF STATE

SEP 04 2007

If source is a Corporation or other Entity:

Name of Corporation or Entity: National Caucus of Environmental Legislators (NCEL)

Name of Corporate/Entity Representative: Adam Schafer

Work Address of Representative: 1920 L St, NW, Suite 800, Wash DC 20036

Value of Honorarium: _____ Date Received: _____ If exact value is unknown, provide an estimate of the value of the gift or honorarium and identify the value as an estimate. [] Exact [] Estimate

Value of Expense Reimbursement: \$600 Date Received: 8/29/07 A copy of the agenda or an equivalent document must be attached to this filing. [x] Exact [] Estimate

Briefly describe the service or event this Honorarium or Expense Reimbursement relates to:

Lodging for attendance at NCEL annual meeting

"I have read RSA 15-B and hereby swear or affirm that the foregoing information is true and complete to the best of my knowledge and belief."

Signature of Filer: Suzanne Harvey

Date Filed

NATIONAL CONFERENCE of STATE LEGISLATURES
The Forum for America's Ideas

NCSL 2007 ANNUAL MEETING
AGRICULTURE, ENVIRONMENT & ENERGY COMMITTEE

August 5-9, 2007 Boston Convention and Exhibition Center • Boston, Mass.	
AGENDA	
Legislator Chair:	Representative Warren Chisum - Texas
Legislator Vice Chairs:	Representative Floyd A. Esquibel - Wyoming Senator Beverly Gard - Indiana Representative Hermina Morita - Hawaii Senate President Stephen Morris - Kansas Senator Larry Mumper - Ohio Representative Richard Roy - Connecticut
Immediate Past Chairs:	Representative Carl Holmes - Kansas Representative Jeff Kropf - Oregon Representative Dennis Ozment - Minnesota
Legislative Staff Chair:	Josh Applebee - Alaska
Legislative Staff Vice Chairs:	Michael Adams - Colorado Alan Boright - Vermont Hannah Shostack - New Jersey
Immediate Past Staff Chairs:	Samuel H. Burr - Vermont Laura DeVivo - North Carolina Kevin McCarthy - Connecticut
NCSL Staff:	Kate Burke - Denver Melissa Savage - Denver Lee Posey - DC Tamra Spielvogel - DC

Sunday - August 5, 2007

8:00 am – 5:00 pm	ENERGY POLICY SUMMIT At this year's Summit, participants will focus on climate change, a priority issue that was determined at the last Energy Policy Summit. This full day meeting is an opportunity for legislators to hear from nationally-recognized experts on rising energy demand, the need for new supply for electricity generation and transportation fuels, and how environmental and economic impacts play a role in policy and decision-making. For more information on the Energy Policy Summit go to: http://www.ncsl.org/programs/energy/EnergySummit807.htm .
5:45 pm – 6:45 pm	NCSL STEERING COMMITTEE

Monday – August 6, 2006

8:30 am – 10:15 am	CAPITOL HILL TACKLES CLIMATE CHANGE With more than 11 committees holding over 90 hearings the 110th Congress has rocketed the
--------------------	---

	<p>issue of climate change to the front burner moving in parallel track to address climate change and energy independence, security and price. As members of both the House and Senate attempt to hammer out the necessary components of an overall effort to reduce greenhouse gas emissions, the legislative agenda has been inundated with proposals to address climate monitoring, research and development, market based mechanisms for reducing greenhouse gas emissions, and the enactment of energy programs that have the additional benefit of addressing emission levels. What has Congress been able to do so far? Where is Congress going next? Is there any common ground on Capitol Hill? What does all of this mean for the states?</p>
10:30 am – noon	GENERAL SESSION
12:15 pm – 12:45 pm	<p>AEE COMMITTEE LUNCH</p> <p>NCSL staff will provide the Committee with an update on Congressional and Administrative action in Washington and provide a recap of key issues for the states during the 2007 legislative session.</p> <p>Speakers:</p> <p style="text-align: center;"><i>Lee Posey & Tamra Spielvogel – Federal Update</i></p> <p style="text-align: center;"><i>Kate Marks & Melissa Savage – State Update</i></p>
12:45 pm – 2:45 pm	<p>COMMITTEE BUSINESS MEETING: CONSIDERATION OF POLICY</p> <p>Presiding: Rep. Warren Chisum, Texas; Chair, Agriculture, Environment & Energy Standing Committee</p> <p>Members of the Committee will discuss & act on committee business, including a review of existing policies scheduled to sunset as well as any additional new policy resolutions submitted for consideration. Following the policy discussion, staff will provide updates on recent federal & state actions, & expected impacts</p>
2:45 pm – 3:00 pm	BREAK
3:00 pm – 5:00 pm	<p>FOOD VS. FUEL: MEETING THE GROWING DEMANDS ON AGRICULTURAL PRODUCTION</p> <p>With the rise in bioenergy demands, agricultural production has been stretched to provide not only food, feed and fiber but also fuel. With the increased production of crops to feed the demand for bioenergy the widespread implications of expanded biodiesel and corn-based ethanol production are becoming more evident. Numerous sectors of the economy are facing higher costs for staple products including the rising cost of basic food stuff and animal feeds. The ramifications are being felt beyond our borders as a recent rally in Mexico over the price of US corn blamed ethanol for the 30% rise in price of tortillas demonstrates. How can we balance these competing demands on crop production? What policies are being put forth in Washington to ensure a balance between crop uses? Can federal energy policy shift evolve beyond corn-based ethanol production?</p>
5:15 pm – 6:15 pm	STEERING COMMITTEE
Tuesday – August 7, 2007	
8:30 am – 10:00 am	<p>GENERAL SESSION: DAVID MCCULLOUGH</p> <p>David McCullough is America's most celebrated historical author. He has won the Pulitzer Prize twice, for <i>John Adams</i> and <i>Truman</i>. He is twice winner of the National Book Award and twice winner of the prestigious Francis Parkman Prize. His most recent book, <i>1776</i>, is a landmark in American literature.</p>
10:15 am – Noon	<p>BUILDING THE GRID: ENERGY POLICY ACT TRANSMISSION IMPLICATIONS</p> <p>As part of the federal Energy Policy Act, the U.S. Department of Energy and the Federal Energy</p>

	Regulatory Commission are moving forward on national interest electric transmission corridors, which would be designated areas of the country where transmission congestion or constraints adversely affect consumers. At the same time, states look to tackle their own reliability and access issues, including bringing new renewable technologies onto the grid.
Noon	AGRICULTURE, ENVIRONMENT AND ENERGY COMMITTEE ADJOURNS
11:30 am – 1:30 pm	EXHIBIT HALL LUNCH
1:30 pm – 3:00 pm	POLICY FORUM - CLIMATE CHANGE: A GLOBAL ISSUE AND A WORLD ASSESSMENT Greenhouse gas emissions are a problem for nations throughout the world. The international Intergovernmental Panel on Climate Change has issued three reports this year with notable findings and public policy alternatives. Experts on each report will address the human and natural drivers of climate change, the scientific, technical, environmental, economic and social aspects of the vulnerability (sensitivity and adaptability) to climate change and public policy options to address energy supply, transportation, industry, agriculture and other concerns that affect emissions, with a wealth of scientific information and a discussion of how policies work or don't.
1:30 pm – 3:00 pm	POLICY FORUM - THE CHANGING FACE OF RURAL AMERICA Out-migration and in-migration patterns are changing the populations of our farms, small towns and exurban areas. Rural places are wrestling with ways to capitalize on assets that immigrants' families bring and help all families achieve economic success. Learn more about these demographic trends, and which public policies can help rural areas not only meet the challenges posed by change, but prosper.
3:15 pm – 5:00 pm	SPECIAL BRIEFING - THE HEAT IS ON: STATES TAKE ON CLIMATE CHANGE Legislative climate change commissions are assessing economic and environmental implications of climate change and developing cost-effective, comprehensive recommendations for mitigating its effects. With businesses, energy companies and other states, three states are at the forefront of developing climate change strategies to reduce pollutants, decrease fuel dependency and improve technologies.
5:00 pm – 6:00 pm	ISSUES IN AGRICULTURE A roundtable discussion of issues facing agriculture, such as Avian Flu, biotechnology, animal identification, animal health, agricultural trade and other topics surrounding agriculture in the U.S. <i>NCSL gratefully acknowledges the support of the USDA for this session</i>
Wednesday – August 8, 2007	
7:00 am – 8:30 am	FARM BILL WORKING GROUP BREAKFAST Members of NCSL's Farm Bill Working Group will meet to discuss NCSL's Farm Bill lobbying efforts. If you are not a member of the Working Group, but would like to participate, please RSVP to Lee Posey (lee.posey@ncsl.org; 202-624-5400).
8:30 am – 10:00 am	GENERAL SESSION
10:00 am – 11:00 am	BUSINESS MEETING
11:00 am – 1:00 pm	NEW ORLEANS 2008 PREVIEW
1:00 pm – 2:30 pm	POLICY FORUM – PATCHWORK POLICY PACKAGE – HOW CONGRESS ADDRESSES THE NEED FOR FEDERAL ACTION ON ENERGY Advanced Energy Initiative. A Nation Addicted to Oil. Climate Change. Energy Infrastructure

	Needs. Renewable Energy. Energy Efficiency. Less than two years after passing the 2005 Energy Policy Act can members of Congress energy legislation that addresses all of these concerns and more? Both the House and Senate have embarked on efforts to enact major energy packages that integrate a patchwork quilt of proposals tackling individual roadblocks facing the nation into a single legislative energy package. Can Congress piece together the diverse and sometimes contradictory requirements of energy and environment concerns facing the country? Is a single cohesive national effort possible? What could new federal laws mean for state efforts to move ahead of the curve? What implications will all of this have on the economy, state innovation and the consumers' pocketbook?
2:45 pm - 4:15 pm	<p>POLICY FORUM - FARM BILL 2007: PLANTING NEW APPROACHES</p> <p>The reauthorization of this critical piece of legislation is taking place against a background of scarce federal resources, unlike the environment that surrounded the 2002 bill. Recent trade decisions may fundamentally alter the approach to crop subsidies and other more traditional parts of farm policy. Important environmental, energy, rural development and nutrition programs funded by this legislation are also part of the debate. Will Congress find a way to balance these competing demands and revitalize and restore our rural areas?</p>
Thursday – August 9, 2007	
8:30 am – 10:00 am	<p>GENERAL BREAKFAST SESSION: ANDY CARD</p> <p>Andrew Card is the second longest serving White House chief of staff in history and the 11th U.S. secretary of transportation. A former Massachusetts state legislator, Card work for three U.S. presidents, Ronald Reagan, George H.W. Bush, and the current President Bush. He served as President George W. Bush's chief of staff until April 2006.</p>
10:15 am – 12:15 pm	<p>WATER GAP: CONFLICT OR COLLABORATION?</p> <p>Competition among cities, farmers, industry and the environment has forced states to make tough decisions about who gets how much water and when. The quandary is especially difficult when it extends to competition among states for an increasingly scare resource. Learn how states are trying to seek balance among users and themselves.</p>
