11:30am **Evaluation Measurement and Verification of Energy Efficiency Resources:  
Current Practices to Estimate Load Impacts and Emerging EM&V Issues**

This presentation will summarize recent research on EM&V practices and emerging issues conducted by LBNL (and Itron) in support of the Leadership Group of the National Action Plan for Energy Efficiency. We conducted approximately 70 interviews with regulators and program administrators in 14 states as well as national-level EM&V experts and reviewed EM&V practices. We will present results on key uses of EM&V studies, perspective of State policymakers on usefulness of EM&V studies, current EM&V planning practices, EM&V funding levels. We also identify and discuss six emerging EM&V issues associated with scaling up and improving EM&V practices under three alternative future scenarios for energy efficiency.

Speakers: *Chuck Goldman*-Group Leader, Electric Markets and Policy Group, LBNL

*Mike Messenger*-Senior Principal Energy Consultant, Itron Corp

12:00pm **Lunch (on your own)**

## Energy Resources and the Environment (continued)

Monday, February 15 (continued)

10:30am - 5:00pm

Congressional Ballroom

- 1:30pm **Bill Impacts of Energy Efficiency Programs  
(Joint with the Committee on Consumer Affairs)**  
As electric and gas companies continue to ramp up their energy efficiency programs -- in some cases in pursuit of all cost-effective energy efficiency savings -- it will be increasingly important for regulators to understand how these programs will affect customers' rates and bills. How are regulators looking at rate and bill impacts? What are the best methods for calculating rate and bill impacts? How are rate and bill impacts weighed against other factors, such as net benefits to customers overall? Are there other factors to consider in assessing rate impacts (such as customer equity and program participation levels)? Regulators from three states with aggressive energy efficiency programs will describe how they have been addressing these issues.  
Moderator: *Hon. Tim Woolf*-Commissioner, MA DPU  
Panelists: *Hon. Dian Grueneich*-Commissioner, CA PUC  
*Hon. Phyllis Reha*-Commissioner, MN PUC  
*Hon. Pat Oshie*-Commissioner, WA UTC  
*Hon. Robert Curry*-Commissioner, NY PSC
- 3:30pm **Hydraulic Fracturing - How to balance the need for new gas supplies with environmental concerns  
(Joint with Committee on Gas and Committee on Water)**  
Please find the agenda as listed for the Committee on Gas

Tuesday, February 16

10:30am - 5:00pm

Congressional Ballroom

- 10:30am **Is the CO2 Solution Beneath Us? Update on Sequestration Efforts  
(Joint with Subcommittee on Clean Coal)**  
What are the latest technical, regulatory, legal and economic issues with carbon sequestration efforts? How are the U.S. Energy Department's eight regional partnerships progressing? What State and federal regulatory and legislative framework needs to be established? What is the overall potential for sequestration and when will sequestration projects start being deployed?  
Moderator: *Michael Dworkin*-Dir. Institute for Energy and the Environment and Prof. Law, Vermont Law  
Panelists: *Ellen Petrill*, Electric Power Research Institute  
*Sean McCoy*, Carnegie Mellon University  
*Doug Duncan*, US Geological Survey  
*John Litynski (invited)*, NETL
- 1:30pm **Reducing Greenhouses Gas Production 80% By 2050: How Can It Be Done?  
(Joint with Committee on Electricity)**  
Reduction of greenhouse gases is now the stated public policy of several States and a U.S. Department of Energy goal. Exactly what will energy regulators need to attain this lofty goal -- today and in the long-term? What challenges and hurdles do we face as we move rapidly toward a carbon-constrained environment? What does that mean for regulated industry, and more importantly, the ratepayer? The National Academy of Sciences, EPRI and the Union of Concerned Scientists have all given this issue significant thought and will discuss how they see regulators moving forward to realize this goal.  
Moderator: *Hon. Clifton C. Below*-Commissioner, New Hampshire Public Utilities Commission  
Panelists: *Representative*, National Academy of Sciences  
*Hank Courtright*-Senior Vice President, Member & External Relations, EPRI  
*Alan J. Noguee*-Director of Climate & Energy Policy and Strategy, Union of Concerned Scientists  
*Jill Duggan*-Visiting Fellow, World Resources Institute (Invited)
- 3:30pm **Energy Interdependencies: Part III  
(Joint with the Committees on Gas, Electricity, Consumer Affairs and Critical Infrastructure)**  
Please find the agenda as listed for the Committee on Gas
- 5:00pm **Adjourn**

## Special Meetings

### FERC/NARUC: Demand Response Collaborative FERC/NARUC: Smart Grid Collaborative

Sunday, February 14

8:30am - 12:30am

Grand Ballroom Central

8:30am **Welcome and Introductions**

8:45am **Intersection of Demand Response and Smart Grid**

9:15am **Collaborative Combination Discussion**

9:45am **DR Action Plan Update**

10:15am **LBNL Update on Collaborative Support**

10:45am **Gateways or Gatekeepers: Smart Grid Information Flow and Use**

The Smart Grid promises to provide energy information to consumers to enable active participation with electricity use. In order for consumers to tap into the promised benefits of a smarter grid, there must be clear policy direction and technological standards.

Regulators must also address technical questions around communications protocols and the type of information that should flow through the meter, or directly to an appliance through a third party application.

This panel will help regulators understand the current landscape and the technical and policy choices at play for tapping into the power of energy information.

11:45am **Demand Response and Smart Grid Demonstration Projects Success Factors and Challenges**

12:20pm **Wrap-Up and Closing Remarks**

# NATIONAL ASSOCIATION OF REGULATORY UTILITY COMMISSIONERS 2010 WINTER COMMITTEE MEETING

## National Action Plan for Energy Efficiency

The U.S. Department of Energy, the U.S. Environmental Protection Agency, and the National Association of Regulatory Utility Commissioners would like to thank the past and present co-chairs of the National Action Plan for Energy Efficiency for devoting their time and leadership to helping states advance all cost-effective energy efficiency.

*Marsha Smith* - Past President, NARUC; Commissioner, Idaho Public Utilities Commission

*Diane Munns* - Past President, NARUC; Former Member, Iowa Utilities Board

*Jim Rogers* - Chairman, President, and C.E.O., Duke Energy

In addition, several past and present state utility commissioners will be recognized during the Winter Committee Meetings for their contributions to creating a sustainable, aggressive national commitment to energy efficiency as members of the National Action Plan for Energy Efficiency Leadership Group. Please join us in thanking the following individuals for their service:

Arkansas PSC - *Paul Suskie; Colette Honorable; Sandra Hochstetter Byrd*

California PUC - *Dian Grueneich*

District of Columbia PSC - *Richard Morgan*

Minnesota PUC - *Phyllis Reha*

New Jersey BPU - *Jeanne Fox*

New York State PSC - *Maureen Harris; Cheryl Buley; William Flynn*

Washington UTC - *Pat Oshie*

These commissioners join an even larger group of state policy-makers, gas and electric utilities, energy consumers, energy service providers, and non-governmental organizations that have advanced energy efficiency through the Action Plan. Since 2006, more than 120 organizations have publicly endorsed the recommendations of the Action Plan and/or established their own aggressive commitments to help achieve all cost-effective energy efficiency. We thank NARUC for endorsing the Action Plan's vision, and we also wish to recognize the following NARUC member organizations for their endorsements and commitments in support of the Action Plan:

Arkansas PSC; California PUC; Connecticut DPUC; Delaware PSC; Florida PSC; Hawaii PUC; Idaho PUC; Iowa Utilities Board; Kansas Corporation Commission; Minnesota PUC; New Jersey BPU; New York State PSC; Oregon PUC; Vermont PSB; Washington UTC; PSC of Wisconsin

NARUC Regional Associations: MARC; NECPUC; SEARUC; Western

The Action Plan owes much of its success to the dedication of the Leadership Group members who contributed their time and their diverse perspectives to steer the Action Plan's efforts. In addition to the NARUC member organizations listed above, the following organizations served on the Leadership Group or in a key Observer role:
