EXPLANATION

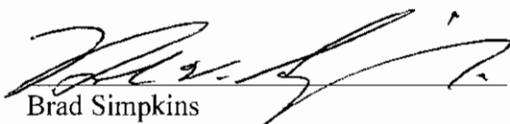

The asphalt shingle roofing on the garage at the North Country Resources Center site has worn out and is in need of replacement. The present roofing was installed in the early 1980's and the shingles have deteriorated to a point of no longer being effective at preventing leaks. Therefore, replacement of the roofing material is necessary to protect the integrity of this building.

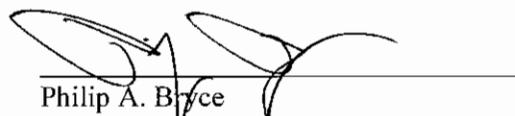

In October 2012, an invitation to submit bids for asphalt shingle roof replacement to the garage at the North Country Resources Center was advertised through 5 companies known to the Department and the construction industry, and on the Department of Administrative Services' and the Division of Parks and Recreation's websites. Five (5) bid proposals were received, and the low bid contractor was selected. Attached for your information is a summary of the bids received for this project.

The Attorney General's Office has approved this contract as to form, substance and execution.

Respectfully submitted,

Concurred,
