REQUESTED ACTION

Authorize the Department of Transportation to enter into a sole-source agreement with Northern New England Concrete Promotion Association (NNECPA) (Vendor Code 153200) South Portland Maine for a fee not to exceed \$18,000.00 to participate in NNECPA's training and certification program from the date of Governor and Council approval through June 30, 2014. 100% Highway Funds.

Funding is available as follows for FY 2013 and is contingent upon availability and continued appropriation of funds for FY 2014:

Table with 3 columns: Item Description, FY 2013, FY2014. Rows include Employee Training (\$12,000.00) and Gen Consultants Non-Benefit (\$6,000.00).

EXPLANATION

This agreement is requested as a sole source with NNECPA. American Concrete Institute (ACI) lists NNECPA as a Sponsoring Group for ACI Certification in New Hampshire. This is a non-profit organization, which promotes the use of Portland cement concrete in the Tri-State area. They have agreed to provide these services at a very reasonable price, acknowledging the benefit to their members when the Department has properly trained technicians. ACI lists one other Sponsoring Group for ACI Certification in New Hampshire, Maine Concrete Technician Certification Board (MCTCB). This organization's president has explained that they are a volunteer organization, which provides the ACI examination as a service to Maine. They are not interested in providing ACI review training and examination for New Hampshire. Any other option would require out-of-state travel, which would prove to be more costly. Based on cost and services provided, New Hampshire is receiving the best overall ACI training and examination package available in our region through NNECPA. In consideration of this, it is recommended that the New Hampshire Department of Transportation continue to receive ACI training through NNECPA.

The contract will provide a review course and examination for Department employees for ACI, Grade 1, Field Testing Technician Certification and Concrete Laboratory Testing Technician. These certifications provide assurance that Department employees providing concrete field and lab testing in support of the Department construction program are properly trained. These certifications are a requirement of our specification for concrete QC/QA projects.

This Agreement has been approved by the Attorney General as to form and execution, and the Department has verified that the necessary funds are available. Copies of the fully executed Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Sincerely,

A handwritten signature in black ink, appearing to read "C. D. Clement, Sr.", with a stylized flourish at the end.
