INFORMATIONAL ITEM

Pursuant to RSA 21-I: 19 – h, IV, Disposal of State-Owned Vehicles Based on Non-business Use, and as adjusted by Fiscal Item number 11-335 (December 2, 2011) the Department of Administrative Services (DAS) is submitting the report of all vehicles which have non-business use exceeding 20% for Fiscal Year 2012.

RSA 21-I: 19, h, Disposal of State-Owned Vehicles Based on Non-business Use requires each agency to report any non-business use on their vehicles quarterly and annually. It also requires the Commissioner of Administrative Services to report annually to the Fiscal Committee and Governor and Council regarding any vehicles which exceed 20% non-business use. These vehicles are eligible for redistribution by the Director of Plant and Property Management unless the agency submits and receives a waiver from the Vehicle Utilization Committee (VUC). The VUC has the authority to grant a waiver for a vehicle exceeding 20% non-business use if it is deemed to be in the best interest of the state.

Fiscal Year 2011 was the first time that quarterly non-business use reporting was utilized. As data became available agencies tried to increase efficiencies. Agencies revised utilization policies, reassigned vehicles, and created "Fleet Pools" as they deemed appropriate for their agency mission. These efforts in conjunction with the redistributions enacted after the FY2011 review have resulted in a significant decrease in non-business use. In FY2011, 227 vehicles exceeded the 15% non-business use threshold that was authorized, for a total of 1,499,537 miles. In FY2012, only 131 vehicles exceeded the 20% authorized threshold, for a total of 875,159 miles. This results in a decrease of 96 vehicles (a reduction of 624,378 miles) exceeding the authorized non-business use threshold.

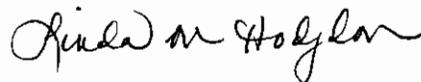

Due to the increased threshold we ran an additional analysis to ensure that our findings of decreased non-business utilization were accurate. If we compared both FY2011 and FY2012 at the same percentage we found that FY2012 had 184 vehicles which exceeded 15% non-business use and they drove a total of 1,067,822 miles. If the percentage had remained at 15% we would have seen a decrease of 42 vehicles exceeding the authorized threshold and a decrease of 431,715 non-business miles.

This informational item details the following:

1. Executive Summary – Data summary of all vehicles exceeding 20% non-business use, agency waivers requested and the VUC's decision on requested waivers.
2. Exhibit A – Non-business Use Report Fiscal Year 2012 – all vehicles which exceeded 20% non-business use in FY2012.
3. Exhibit B – Voting Matrix – the VUC's voting results for each waiver requested.

Vehicle information referenced and contained in the attachments are supported by each agency's FY2012 Motor Vehicle Record Reports.

Respectfully submitted,

Linda M. Hodgdon
Commissioner
