EXPLANATION

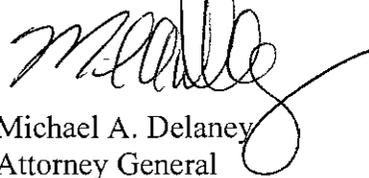

The OCME receives a stipend for the unique opportunity it affords Physician Assistant students at the Massachusetts College of Pharmacy and Health Sciences, based in Manchester, to spend one month observing autopsies and operations of New Hampshire's death investigation system. This exposes the students to basic anatomy and physiology in a manner unmatched by any cadaver lab or computer simulated anatomic dissection. Furthermore, students learn firsthand the public health mission of the medical examiner's office, broadening their education in clinical medicine and making them more effective as health care providers.

Based on need and current projections, these funds will supplement the budget in out of state travel. There is no cost to the state for providing this service to the students.

Please let me know if you have any questions concerning this request.

Your consideration is greatly appreciated.

Respectfully submitted,

Michael A. Delaney
Attorney General
