Explanation

The New Hampshire Fish and Game Department, Law Enforcement Division's marine boat is in need of replacing the collar system which is vital for the operation of the vessel. During the last few years operators have noticed a decrease in performance and handling of the vessel while patrolling that is attributed to the foam collar system being waterlogged due to the age of the vessel. Maintaining the vessel in proper working condition is essential for the boat's primary law enforcement functions in the coastal environment. Sole Source request is due to SAFE Boats is the sole source manufacturer of foam-stabilized watercraft in North America. Working under a set of exclusive patents and licenses allows only SAFE to utilize a full-sized foam collar system for flotation, stability and fendering.

Respectfully Submitted,
