EXPLANATION

The Division of Parks and Recreation manages Cannon Mountain Ski Area in Franconia, NH. Currently, the two existing boilers in the Peabody Lodge are worn beyond repair and need replacing. Both boilers were installed in May of 2009 with an expected lifespan of 10 years. One of the boilers failed last winter and the remaining boiler in operation needs critical repairs. Replacement parts are no longer made for the units we currently have. The efficiency rating on the remaining operating boiler is 85% compared to the replacement boiler which would operate at an estimated efficiency rating of 95%. Cannon Mountain's Plant Maintenance Engineers anticipate further problems through the winter leading to failure of our remaining boiler. These boilers are essential for heating Peabody Lodge, primary base lodge for winter ski operations at Cannon Mountain. The DAS State Energy Management Office has offered a split funding contribution as a part of its overall Energy Management Initiative within State properties (letter attached).

On September 2, 2022, an invitation to submit bids for the removal and replacement of two Buderus Boilers in the Peabody Lodge at Cannon Mountain Ski Area was posted on the Division of Purchase and Property's website and the Division of Parks and Recreation's website. Three bid

proposals were received on September 16, 2022, and Grafton Mechanical Services, LLC was the selected low bidder. Attached for your information is a summary of the bids received for this project.

The Attorney General's Office has reviewed and approved the contract as to form, substance, and execution.

Respectfully submitted,

(PSM)

Concurred,
