

Subject: appeal of ballot name location

David,

Please accept this email as an appeal of your decision to place the same individuals in the same order in Hillsboro District 45.

As I explained, the district is a flatorial that consists of 4 separate towns. RSA 656 has a number of paragraphs dealing with ballot order. 656:5 contemplates non-flatorial districts and senate districts. The assumption on the non-flatorial districts are they are small in size or a single municipality. The exclusion of flatorial district implies that there is a difference in the districts

Additionally, the statute repeatedly references the need to have a rotation in the order of the candidates to be fair. That is during the primaries and general elections. The current situation clearly does not provide for this.

I request that my issues be heard at the Ballot Commission upcoming hearing on Wednesday 24, 2022.

Respectfully

Hon. Jack Flanagan
