

To: David Scanlan, Secretary of State
From: Appointed General Audit Team
Date: Friday, November 11, 2022
Re: **Results of the 2022 General Audit**

Audit Report – 2022 General Election

The 2022 General Audit was conducted in accordance with S.B. 366 (2022). The Secretary of State, using a randomized selection process, selected the AccuVote electronic ballot counting devices in Pembroke, Tilton, Durham, and Somersworth Ward 3.

Findings:

1. Exhibit 1: Post-Election Audit Worksheet for Pembroke, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Pembroke AccuVote electronic ballot counting device was successful, and results were within the expected margins.
2. Exhibit 5: Post-Election Audit Worksheet for Tilton, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Tilton AccuVote electronic ballot counting device was successful, and results were within the expected margins.
3. Exhibit 7: Post-Election Audit Worksheet for Durham, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Durham AccuVote electronic ballot counting device was successful, and results were within the expected margins. Durham Moderator Christopher Regan, an appointed member of the Audit Team, recused himself from this audit.
4. Exhibit 9: Post-Election Audit Worksheet for Somersworth Ward 3, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Somersworth Ward 3 AccuVote electronic ballot counting device was successful, and results were within the expected margins.

Pembroke AccuVote Machine Audit

1. Number of Ballots
 1. AccuVote Long-Tape Count: 3241
 2. Clear Ballot Count: 3248
2. Discrepancies
 1. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.
 2. There was a seven-ballot difference in the number of ballots counted by the Clear Ballot ballot counting device versus the number of ballots recorded on the AccuVote long-tape. Part of the difference may be credited to potential jams that the Poll Officials mistakenly believed were

counted by the machine. In particular, the Clear Ballot ballot counting device recorded two ballots with overvotes. In the Governor's race, a vote is clearly intended for Chris Sununu, however, the bubble for write-in has some coloring over it (Exhibit 2). The AccuVote device likely would have rejected this ballot as an overvote, however, it is possible that this ballot was jammed and Poll Officials mistakenly thought the ballot was counted by the machine and therefore placed in the ballot bin below the AccuVote device. This same, potential explanation would apply to a ballot that Clear Ballot indicated was an overvote (Exhibit 3). Here, the voter crossed out a filled-in oval over "Yes," filled in the oval for "No," and circled the oval for "No," clearly indicating their intent to vote "No" on the first Constitutional question. The AccuVote would have rejected this ballot as an overvote, however, the same possibility with the first reported overvote could have occurred.

3. Exhibit 4: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

Tilton AccuVote Machine Audit

1. Number of Ballots

1. AccuVote Long-Tape Count: 1546
2. Clear Ballot Count: 1546

2. Discrepancies

1. The Tilton AccuVote long-tape matched exactly to the Clear Ballot Report of Votes, with the exception of one race. In Tilton's Executive Councilor race, Dana S. Hilliard was credited 675 votes in the Clear Ballot report and 676 votes on the AccuVote long-tape, while 52 undervotes were recorded in the Clear Ballot report and 51 undervotes were recorded on the AccuVote long-tape.
2. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.
3. Exhibit 6: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

Durham AccuVote Machine Audit

1. Durham's moderator, Attorney Christopher Regan, is an appointed member of the Audit Team. As part of the audit, Attorney Regan was not informed which AccuVote devices in which voting districts were randomly selected. At noon on Election Day, a representative of the Secretary of State's office delivered a letter informing Attorney Regan that Durham's AccuVote device was selected for the audit. During the audit on November 10, 2022, Attorney Regan was not involved in the audit of Durham's AccuVote device, and remained outside the guardrail as an observer for the duration of the Durham audit.
2. Number of Ballots
 1. AccuVote Long-Tape Count: 5873
 2. Clear Ballot Count: 5872
3. Discrepancies
 1. Prior to beginning the audit, Durham's Moderator informed the Audit Team that, during the course of the election, a ballot had jammed in the AccuVote machine. The Moderator believes the ballot was not read by the AccuVote device, however, when he went to unjam the ballot from beneath the AccuVote device, the ballot fell into the ballot bin and commingled with other ballots. It was therefore not possible to rescan the correct ballot.
 2. The Moderator also informed the Audit Team there was one ripped ballot. He placed the large portion of the ripped ballot at the top of one of the sealed ballot boxes, but was unsure where the smaller piece of the ballot was in the sealed boxes. The ballot was not ripped when it was fed through the AccuVote device, rather, it was ripped when ballots were taken from a full bin and placed in the ballot boxes to be sealed. During the audit, the second part of the ballot was found in Ballot Box 5 of 7. The two parts of the ballot were taped together and fed through the Clear Ballot scanner in Target Card ID ED-020. A second ballot with a small tear at the top of the paper was also fed through the same Target Card ID.
 3. During the audit, the Clear Ballot scanner reported two unreadable ballots. The first ballot was in Target Card ID 036, and the second ballot was in Target Card ID 048. Each of these ballots were manually adjudicated after all ballots counted by Durham's AccuVote machine were scanned by the Clear Ballot ballot counting device. The Audit Team determined that the Clear Ballot scanner was not able to read the ballots because there was a fold in the ballot in the bottom corners. This fold interfered with the timing marks, rendering them unreadable by the scanner.
 4. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.
 5. Exhibit 8: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

Somersworth Ward 3 AccuVote Machine Audit

1. Number of Ballots
 1. AccuVote Long-Tape Count: 856
 2. Clear Ballot Count: 854
2. Discrepancies
 1. On Election Day, Somersworth simultaneously conducted a municipal election, therefore, the AccuVote device in Somersworth Ward 3 processed both state and city ballots. Prior to beginning the audit of Somersworth Ward 3's AccuVote device, the Audit Team diligently sorted through the ballots to ensure that only the state ballots were included in the audit.
 2. The Somersworth Ward 3 AccuVote long-tape reported 856 total ballots cast in the state election, while the Clear Ballot Statement of Votes reported 854 total ballots.
 3. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.
 4. The Clear Ballot ballot counting device reported an overvote for the second Constitutional question (Exhibit 10). The Audit Team was unable to determine whether this overvote – which consists of a light "X" over both the "Yes" and "No" oval – was counted by the AccuVote device for either "Yes" or "No."
 5. Exhibit 11: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

Sincerely,

Attorney Orville Fitch

Dan Cloutier

Attorney Christopher Regan¹

Christopher Bentzler

Senator James Gray

Attorney Jennifer Coté

Attorney Eric Forcier

Ira Margulies, Clear Ballot

Patricia Lovejoy, Senior Deputy

John Chadbourne, Clear Ballot

John Penney

¹ Attorney Regan did not participate in the Durham audit.

OFFICIAL BALLOT FOR PEMBRROKE GENERAL ELECTION NOVEMBER 8, 2022

Instructions to Voters
 1. To vote, candidates must receive 50% of the valid votes. If no candidate receives 50% of the valid votes, a runoff election will be held on the date specified on the ballot. If a runoff election is held, the candidate who receives the most votes in the runoff election will be elected.
 2. To vote, you must mark your ballot as follows: (a) Mark your ballot with an "X" in the circle next to the name of the candidate you wish to vote for. (b) Mark your ballot with an "X" in the circle next to the name of the candidate you wish to vote for. (c) Mark your ballot with an "X" in the circle next to the name of the candidate you wish to vote for.
